

Help for Beginning and Struggling Readers

a workshop for parents and caregivers

Presented by Connie Peters (teacher with the Grande Prairie Public School District)

Are you:

- puzzled about how children learn to read?
- not sure how to help your child with reading?
- frustrated by your own efforts to help?

Come and join us. Experience what it is like to be a beginning or struggling reader (in case you've forgotten). You will also experience the success a reader can have when appropriate techniques are used to support him/her. Leave with some practical strategies to use with your own child so that both of you can enjoy the experience of reading together.

When: January 20, 2010

Time: 7:00 PM

Where: Lion's Learning Centre

Please pre-register by calling Marilyn at Central Office – 780-532-4491. There is a limit of 20 participants. This workshop can be offered again if there is interest.
