

ANNUAL GRANT PROGRAM

GRANTS

The Foundation exists to support and promote exceptional achievement in all areas of school life for our students. All money that we raise is used for projects which complement basic education services and are not funded through government educational granting formulas. We strive to excite the public about public education and all its accomplishments. The Foundation sets aside funds annually, pending budgetary decisions, to support this grant program.

WHAT WE FUND

Grants are awarded for specific purposes and for projects covering a specified period of time. This grants program supports initiatives that:

- Foster cooperative and innovative approaches to school community projects
- Address an identifiable need
- Complement and enhance basic education services provided by the Grande Prairie Public School District
- Are supported by the school administration
- Influence a large range or number of students

GRANT PROCEDURE

The Foundation invites applications for projects from District schools. Applications will be accepted at any time. Grant applications will be reviewed at regularly scheduled Foundation Board of Directors meetings. They should be sent to Central Office in care of Teresa Souliere, Executive Director of the Education Foundation.

FINAL REPORT

Upon completion of the project, all successful applicants will submit a brief final written report to the Foundation indicating how the grant money was spent and what benefits were received. All awarded grants must be utilized for the intended request.
